### ENGINEERING DRAWING

The bottom line is the text must be legible. Not too small and not too big so it will not interfere other objects. Let's see the common practice for engineering drawing lettering. Standard Font Height. Height - 1/8" is common (1/4" for titles etc.) Upper & Lower Case - Engineering lettering is commonly upper case CAPITALS

### Standard font height and type for engineering drawing ...

An engineering drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component. The drawings are linked together by a master drawing or assembly drawing which gives the drawing numbers of the subsequent detailed components, quantities required, construction materia

### Engineering drawing - Wikipedia

Engineering Drawing by Thomas Ewing French, Mech. Eng., OSU 1895, also known as A Manual of Engineering Drawing for Students and Draftsman, was first published in 1911 by McGraw-Hill Book Company. It appeared in fourteen editions and was last published in 1993. The title and author remained the same through the first six editions. French died during the publication years of the Sixth Edition, so the Seventh Edition was revised by his colleague at Ohio State University, Charles J. Vierck. The Eig
