I was hoping for a bit more design of sound system with practical application of the calculations. The last day served me the most. The first 2 days was mostly review for me. R.T. Page 34 of the manual was the most useful to me and worth the cost of enrollment. This course provides a solid way to improve sound system design skills. K.W.

### Sound System Design | Prosoundtraining

Reference design criteria requires 72 measurements, taken 360 degrees around the speaker, yielding 1,200 times more data. This data is used in the design of critical system components, enabling JBL to engineer complete systems that deliver smooth off-axis response. The result: clear, accurate sound at the listening position in any room.
