ERIC - EJ1225725 - A Vygotksian Developmental Approach to Second Language Education, Journal of Cognitive Education and Psychology, 2018. This article considers the pedagogical research informed by the writings of L. S. Vygotsky concerned with the teaching and learning of languages beyond the first (L2). Following a brief overview of developments in the application of Vygotksian theory to explicating processes of L2 development in instructional settings, we consider more recent scholarship ...

A Vygotksian Developmental Approach to Second Language ...

Vygotsky sees "private speech" as a means for children to plan activities and strategies and therefore aid their development. Private speech is the use of language for self-regulation of behavior. Language is, therefore, an accelerator to thinking/understanding (Jerome Bruner also views language in this way). Vygotsky believed that children who engaged in large amounts of private speech are more socially competent than children who do not use it extensively.

"Interaction and Second Language Development: A Vygotksian Perspective provides a comprehensive and accessible synthesis of sociocultural approaches to understanding instructional interaction and the genesis of second language development. Throughout the book, van Compernelle presents clearly defined and well-illustrated concepts of the major tenets of Vygotsky's sociocultural theory using numerous examples of co-produced mediation during jointly constructed talk-in-interaction.

Interaction and Second Language Development: A Vygotksian ...

According to Zhang (2013), Vygotsky's theories are fundamentally flawed from a contemporary linguistic standpoint and Newman (2018) claims that "the support claimed from Vygotsky in accounts of second language acquisition is misplaced, first because of those difficulties and, second, because many who claim support from Vygotsky, do not need or even use his theory but instead focus their attention on his empirical observations and assume incorrectly that if their own empirical observations ...
